**Technology Camps**

During the summer months, the Assistive Technology Resource Center hosts one of the few technology camps for children and teens with special needs. These bright, creative youngsters participate in interactive, technology-focused, theme-based learning. They sharpen technology skills and address individual learning goals using specialized equipment and software. Campers develop collaborative teamwork, project planning, and social interaction competencies as they do research, solve problems, and complete team challenges. The camp curriculum is designed to enhance skills and promote self-esteem and independence while preventing summer learning loss.
